

SPET Apple Store Policy

Version 1.0

Effective Date: 7 July 2026

Authorised Apple Reseller

SPET Enterprise supplies genuine Apple products through authorised distribution channels. We do not deal in counterfeit or unauthorised products. Suspected counterfeit goods may be reported to the relevant authorities.

Professional Service

We provide professional pre-sales advice, procurement support, warranty assistance and after-sales service for businesses, organisations and consumers.

Availability

Stock is subject to distributor allocation and global supply. Display of a product does not guarantee immediate availability. Orders are confirmed only after payment verification and stock allocation.

Pricing

Apple pricing may change because of exchange-rate fluctuations and distributor pricing updates. Final pricing is confirmed when the order is accepted.

Warranty

Eligible products include the applicable Apple manufacturer's warranty and support.

Business Procurement

We support corporate, education, government and NGO procurement with quotations and bulk purchasing.
